

STATUS OF THE CLAIMS:

Please cancel claims 13-30 without prejudice or disclaimer.

Claims 1-30 – Canceled.

Please add new claims 31-34 as follows:

31. (New). A method of producing interspecific *impatiens* seed, the method comprising the steps of:

- a. crossing a first parent *Impatiens flaccida* plant with a second parent *Impatiens Hawkeri* plant; and
- b. harvesting the resultant interspecific *impatiens* seed.

32. (New). The method of claim 31, further comprising the step of planting the resultant interspecific *impatiens* seed and growing into an interspecific *impatiens* plant.

33. (New). The method of claim 32, further comprising the step of selecting a interspecific *impatiens* plant having a trailing habit.

34. (New). The method of claim 33, further comprising the step of taking a cutting of said selected trailing interspecific *impatiens* plant.
